EDUCATION

Chandigarh Engineering College, Punjab   *2022 – 2026*
Bachelor's of Technology - Computer Science

TECHNICAL SKILLS

Frontend	React.js, Next.js, HTML5, CSS3, TailwindCSS, JavaScript, TypeScript, Redux
Backend	Node.js, Express.js
Database	MongoDB, MySQL, PostgreSQL, Prisma ORM
Languages	C++, Core Java, Python
Tools	Git, GitHub, Render, VS Code, Postman, Vercel, Figma, Docker

EXPERIENCE

SGK Business Support Solutions   *May 2025 – June 2025*
Full-Stack Developer(Freelancer)

- Developed a full-stack CRM using the MERN stack with JWT role-based auth, securing data access for 100+ clients.
- Engineered scalable backend with Node.js/Express, boosting API speed by 30% and enhancing system reliability.
- Crafted React-based UI that improved engagement by 45% and simplified multi-role customer workflows.

PROJECTS

Insightly   *Github*
Modern Blog Platform

- Architected and deployed a fully responsive blog platform with modular React components and TypeScript, ensuring 100% type safety and 35% faster development cycles.
- Engineered a secure authentication flow using JWT and Google OAuth 2.0, enabling seamless user onboarding.
- Integrated PostgreSQL with Prisma ORM to efficiently manage user data, blog posts, and memberships with optimized relational queries

CloudNest   *Github* Live
File Sharing and Storage Platform

- Developed a secure file sharing and storage platform leveraging Appwrite's built-in authentication, database, and storage services.
- Configured backend logic in Next.js to orchestrate Appwrite functions, manage access control, and trigger storage workflows.
- Achieved seamless role-based user operations and scalable file handling with minimal custom backend code.

CERTIFICATIONS

- Full-Stack Web Developer By 100xDevs.
